

LET'S FACE IT TECHNICAL MARKETING IS HARD

AmatriumGPT is built on two foundations, 'natural language search' and security. Take advantage of ChatGPT technology with company-only data.

Endless opportunities for new content creation from social media, blogs, executive summaries, brochures in any language...

Secure. Fast. Your Competitive Advantage.

Why AmatriumGPT?

Your in-house library may be on your hard drive, or on a corporate server spanning many facilities. Search has been difficult. File naming convention makes it hard to find what you are looking for.

Put it all in the past with 'the ultimate efficiency tool.' Easy to find, easy to generate new content, or to make use of past reports, brochures, and product data sheets. With the option to translate any document into 100 languages, FAST.

AmatriumGPT can be customized to your preferences.
