

FOR BETTER SEARCH & COLLABORATION USING THE MEMBERSHIP LIBRARY

AmatriumGPT is built on two foundations, 'natural language search' and security. Take advantage of ChatGPT technology with members-only data.

Endless opportunities for new content creation from research reports, proposals & promotion.

Retain Members. Grow Membership.

Why AmatriumGPT?

Your library has been building for years, and now the tools are available to put it to good use! You owe it to your members, and better yet- this brings more value to the members- they will love the Chat and Summary options, each delivering unique capability. Or, the ability to translate any document into 100 languages, FAST!

AmatriumGPT can be customized to your preferences.
